

Primary Industry Links with the CFA

Exposing young people in secondary schools to career options has expanded to include several primary school initiatives. Grade 6 students at Mooroopna Primary School have learnt about the CFA and Emergency Services.

The students learnt about the different jobs within the CFA, the important work they do in our community and their reliance on volunteer support. This involved a tour of the CFA headquarters and presentation by Peter Dedman.

Diverse collaborations.

Innovative ways of working.

Equity, access, inclusion, belonging, trust and respect.

Deep listening, community-led responses.
