Media Release

Cobram Community Forum

Help shape the future for young people in Cobram.

Come and have your say at the whole of community forum being held Wednesday 29th August 5.30pm at the Cobram Italian Social Club.

Lead by consultant Michelle Dunscombe, Lighthouse Project recently completed a large-scale consultation of the town - "Cobram Conversations". 298 Cobram residents participated and majority were young people. A youth space was identified at the top of the wish list for residents along with an all abilities playground and access for young mothers to breast feeding spaces and baby change facilities.

These emerging themes and more will be discussed at the community forum and will form the basis of a community lead approach to supporting young people in Cobram.

'We believe communities know what they need and by listening deeply and responding with sound strategy community can create positive and genuine change' – Executive Officer, Lisa McKenzie.

If you wish to participate in the forum and have your voice heard
